First payment was made for 141 industrial deaths in 1991. Fourteen of 141 cases were pensioners who died from causes related to their compensable injuries or diseases. The 141 fatalities first paid in 1991 cannot be compared to the 183 fatalities reported in 1991 because some of the fatalities first paid in 1991 occurred and were reported in a prior year. There is a breakdown of these 183 reported fatalities on a subsequent page.

1 Fatalities that occurred in the year and were reported to the Board by 20 February of the following year.

During the year, 149,850 claims were paid for the first time. Of those:

68,614	were for medical aid only;
77,664	were for temporary total disability;
3,431	were for permanent disability;
141	were for fatal accidents.

The Board set aside $4,401,763 in pension reserves to pay for hearing loss claims allowed in the year.

Costs

Compensation costs totalled $510,249,516 in 1991 compared with $484,756,750 in 1990. The figures include actual payments made for medical aid and wage loss, as well as a reserve set aside for present and future payments of permanent disability and dependants' pensions awarded in 1991. The expense figures shown in Schedule 1 of the Finance and Statistics section show pension payments made during the year, not reserves set aside.

NOTES

There were 12 deaths that occurred in 1990 but were not included in last year's table; they were reported to the Board after 20 February 1991.

Disallowed claims are those that fall within the scope of the *Act* but are not acceptable, usually because they are not work-related.

Claims awaiting application typically involve cases where the deceased's relatives elect to sue a third party rather than to claim compensation.
